

Skin Cancer Awareness Resource List

- American Cancer Society provides Skin Cancer statistics and facts.
<http://www.cancer.org/cancer/skincancer/index>
 - PDF Melanoma Facts:
<http://www.cancer.org/acs/groups/cid/documents/webcontent/003120-pdf.pdf>
 - PDF Skin Cancer Prevention/Early Detection:
<http://www.cancer.org/acs/groups/cid/documents/webcontent/003184-pdf.pdf>
- The Burning Truth Initiative by the CDC offers a toolkit for helping teach younger adults about the dangers of over exposure to sun. They also offer three downloadable posters.
 - Toolkit: http://www.cdc.gov/cancer/skin/what_cdc_is_doing/toolkit.htm
 - Posters: <http://www.cdc.gov/cancer/skin/burningtruth/index.htm>
- The Environmental Protection Agency provides free resources (in Spanish and English). Among them include downloadable coloring books, fact sheets, handouts and more.
<https://www.epa.gov/sunsafety>
- The American Academy of Dermatology offers several free infographics on skin cancer detection and sun safety. You can print these resources for free!
<https://www.aad.org/public/spot-skin-cancer/free-resources>
- National Institutes of Health, National Cancer Institute
<http://www.cancer.gov/types/skin>
 - Patient education Booklet: <http://www.cancer.gov/publications/patient-education/skin.pdf>
- This link is provided by the North Dakota Cancer Coalition and has information and tools such as printable brochures, fact sheets, coloring books, many UV bead activities and ways to plan community events to educate about sun safety.
